ABOUT US

Established in 1992, Frontline Systems was a privately held IT business headquartered in Sydney Australia with 200+ employees and offices in Singapore, Brisbane, Canberra, Melbourne and Adelaide.

In May, 2011, NTT Communications Corp, the Global Japanese Telecommunications Provider, purchased a significant portion of Frontline. Frontline's business is built around the provisioning of Managed Services, Professional Services and Enabling Infrastructure to their large client base in Australia and Singapore.

Our clients include the very largest of Australian businesses from Telecommunications, Banking, Government, Defence and Corporate. Now with NTT's involvement, Frontline's expansion locally and through Asia will continue, offering complimentary business solutions to those of NTT.com.

TESTIMONIALS

"Frontline's strengths are in the breadth of their strategic and relevant professional IT industry relationships. Their customer communication and project management processes are excellent and one always knows where the project is at any time."

KAREN HOLT

Head of Information Services - Corporate IT, Online Services including Web & Digital Media, Records Mgmt Australian National Maritime Museum (www.anmm.gov.au)

"Kennards have worked with Frontline for 2 years on a whole of business IT transformation. Frontline has been instrumental in helping us transform from a basic, immature IT infrastructure and operating environment to a rationalised, highly automated and adaptable IT environment which can enable our business to achieve its strategic business aspirations across 100 branches nationally."

MAURICE CHESTER
